

HOW TO: Make your Blog Packet

First Page of Packet: A written summary of what you learned in the entire course and how it all connects to each other.

Second Page of Packet: Another diagram/mindmap demonstrating visually what you learned in the entire course and how it all connects to each other.

The Rest of the Packet:

1. Open any Wordpress software (Google Docs, Word, etc)
2. Go to you blog and copy the text into your document (Command+C, Command+P or Ctrl+Copy, Ctrl+Paste)
3. Copy your images (Ctrl+CopyImage, Ctrl+PasteImage)
4. Copy the links and references as well
5. Make sure you do this for all your blog posts

Save the entire document as a PDF (File -> Download -> PDF document in Google Docs, Save as PDF in Excel)
